—Dispatches from most of the corn country show that the crop was not injured to any great extent by the frost of last week. On the low lands in Iowa there was some damage done the corn, and considerable damage in Minnesota. We hear of no damage in this state or Kansas.
—The SENTINEL has had repaired the walk leading to its offices, and now has the easiest access to any office in the city. —Mrs. L. S. Perkins, of this city, took first premium at the Maitland fair last week, for the best silk patch quilt. This was by far the finest piece of work on exhibition, and was justly entitled to the blue ribbon. Mrs. Perkins has reason to be proud of her work.
—Charles D. Brodbeck, who has been in the employ of T. S. Hinde, druggist, in this city, left this week for Odell, Neb., where he has accepted a position in a drug house. In order to make a first-class pharmacist of himself. Being industrious, honest and sober, we see no reason why he should not succeed, and wish him abundant success in his new home.
—John G. Cowan & Son, of New Point, took the following premiums at the Maitland fair last week: bull, 3 years and over, 1st premium; bull, 1 year and under, 1st premium; cow, 2 years and under 3, 1st and 2d premium; cow, 1 year and under 2, 2d premium. They also took sweepstake premiums as follows: 1st on cow, 1st on aged herd 1st on herd under 2 year old and 2nd on bull and five of his calves.
—We regret exceedingly to announce a great misfortune which befell our worthy citizen, Mr. J. C. Hinkle, one evening last week. He went to his crib and taking all the old trash and hucks, in a pile, set fire to them. It remained for some time in the yard, catching the fire and did not leave until he was sure the fire had died out, and everything was safe. He returned to his home, but only for a short time, when he discovered his crib, containing \$900 worth of corn was on fire. The flames had gained such headway that it was impossible to save a single bushel. As Mr. Hinkle was unable to raise any corn this season by reason of the high water, the loss is a heavy one, and we trust these former friends who have hundreds of bushels of old corn, will see that Mr. Hinkle has abundance of feed for his stock through the winter.
—Mrs. T. W. Collins, of St. Joseph, is among her relatives here this week.

—At the late conference of the M. E. Church South, at Chillicothe, Rev. Thos. E. Hodgketh, was assigned to the Craig charge. Rev. John Anderson has been assigned to the Presiding Elder's charge of the Chillicothe district. We congratulate Brother Anderson on his promotion.
—Our Horticultural Society captured the blue ribbon at the Maitland fair last week, for the best display of fruit. The society was represented by Mr. Neal Hobitzell of this city, and when the committee tied the ribbon on Neal's display, it would have done you good to see him smile.
—Holt county is fast becoming one of the richest counties in the state. Our farmers are mostly out of debt, and are rapidly becoming rich; building good and substantial houses and farms. We have the very best soil, and universally good crops. Our people are industrious and earnest in the labor of building up the institutions of the county.
—The many friends of Elder Fiegenbaum will be glad to learn that he is to remain in St. Joseph. At the conference held in that city last week, Elder Fiegenbaum was placed in charge of the St. Joseph charge of the German M. E. Church. Rev. Asling is returned to Oregon. Rev. H. R. Kiemer is made Presiding Elder of the St. Joseph district.
—The Normal Literary Society will be re-organized next Friday evening at the Normal school building. We hope our literary will be in attendance and lend their aid in making the society a success. Everybody and his wife's relations is invited to be present and participate. Come prepared with a song, recitation or speech; you may be called upon.
—A collision occurred at Corning, on the Kansas City, St. Joseph & Council Bluffs railroad Monday last. The passenger train ran into a freight, the switch being left open. No one was killed but several were injured. Fred Johnson, of Nebraska, had a leg broken. George Duncan, a gas fitter, was crushed by a falling weight. He will probably die.
—The histories now in use throughout the land are to be thrown aside, and a new one is to be substituted. The old ones only give seven wonders, and as there are now eight, the old histories are thought to be useless. This omission was discovered one day last week when a class in history was called and the teacher calling for the seven wonders, a bright youngster proceeded and named them without a mistake, when another in the class insisted that there were eight, and was entitled to his position at the head of the class. The teacher was greatly surprised at this remarkable declaration, but of course, gave the little one a chance, and told him to name the eighth wonder, as he seemed so positive. The little fellow straightened up like a Comanche Indian, his eyes sparkled like diamonds, and yelled to the top of his voice: "The little girl baby at Ab. Greene's! It's the only girl of seven children, and I think that girl baby is a wonder; she is a daisy, and Ab. is doing well." The teacher fainted.
—Robert Lyons is attending the Kansas City fair, this week.
—Vess Boyd, of New Point, entertained his mother and sister last week, who came from Ohio to visit their son.
—Mr. Neal Hobitzell of this city, captured the second premium at the Maitland fair last week, for the best all purpose stallion 4 years and over.
—Lost in the court house park, Sept. 1st, 1883, pocket book containing a pair of gold ear rings (finder will be rewarded, by leaving the same at this office).
—The people of Wathena, Kansas, are to be congratulated in securing the services of Miss Susie Lukens, of this place, as a teacher in their school. She left for her new field of labor on Saturday last.
—P. M. Zook, our Photographer, will, for the next 60 days, make pictures at prices as low, and do as good work as can be done in any city, see his "ad," elsewhere in this issue of THE SENTINEL.
—A cheeky individual is travelling over the country taking in gullible people by selling them common cement for 50 cents a pint. He calls it lightning polish and warrants it to brighten up anything. He buys it for 50 cents a bushel.
—Elder Wm. A. Gardner, of Mound City, captured the following premiums at Maitland last week: Best cow, three years old and over, 1st prem. Best heifer two years old and under three, 1st prem. Best heifer one year old and under two, 1st prem. Best herd owned by one person, not less than five in number, including bull, 1st prem.
—Some overseers seem to have an idea that to work the roads means only to work the roads, and so they leave them in a generally wretched condition. For instance, we never could see either the beauty or utility of that popular custom of plowing up half of the road and leaving it just so. It looks as though it was done by men whose idea of a good road is gathered from the habit of chasing cattle out of the corn over their own dilapidated fences, and can never get accustomed to walking over level ground.
—A. A. McIninch, of St. Joseph, is at the front now with his new goods in his five mammoth rooms at 1900 to 1910 Frederick Avenue. Mr. McIninch spent several weeks in the east selecting goods for his dry goods, clothing, boot and shoe and general rooms, and he tells us he has a much larger and better assortment than ever. His stock has arrived and is now ready for inspection of customers. He invites the people of Holt county to call and inspect his goods, and if you want anything in his line, he will make it to the interest of all to buy of him.
—We have been noticing Uncle Gemecker for the past week very closely, and find that he has been in a remarkably good humor; on inquiry he informed us that to be a grand pa was sufficient to put any chap in pleasant mood. The following from the St. Joseph Herald of the 11th inst will explain matters: The Herald has been wondering what good fortune had fallen upon our young friend Henry Pinger, of the Fourth street lumber yard, as for the past few days he has been so happy that his radiant face has been covered with smiles, and such smiles, too, that would come tripping over his countenances from his collar-button to the topmost hair of his head—that made his face a blaze of light resembling a newly discovered comet—but now the secret is out. A bran spanking new boy made its appearance in the household of the new Papa Pinger last Monday, and now the boys at the yard complain that the attraction at home is so great that he does not put in an appearance at his office mornings until nearly noon, and does not get back from dinner until nearly supper time. Mother and child doing well, and the father is likely to recover.
